DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)
SKIRT.

THE WONDERFUL FLEXIBILITY and great comfort and PLEASURE to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in crinoline, not found in any Single Spring Skirt.

A lady having enjoyed the PLEASURE, COMFORT, and great CONVENIENCE of wearing the DUPLEX ELLIPTIC STEEL SPRING SKIRT for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down steps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape, finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against IMPOSITION be particular to NOTICE the skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt.

FOR SALE in all Stores where FIRST CLASS skirts are sold throughout the United States and elsewhere.

Jules Jared's
"EMAIL DE PARIS."
THE NEW
Beautifier of the Skin.
TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of polished Ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or blackworm specks, and is especially successful in smoothing out the marks left by the smallpox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as
Signora RISTORI,
M'dlle FELICITA VESTVALI,
Miss MAGGIE MITCHELL,
Mrs. D. P. BOWERS,
LUCILLE WESTERN,
Madame PONISI,
Mrs. EMMA WALLER,
LUCY RUSHTON,
NOEMIE DE MARGUERITTES,
Miss A. PERRY,
and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:
"I find that the 'Email' produces all the brilliancy of rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin."

The magnificent Vestvali says:
"I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth."

Miss Maggie Mitchell says:
"I have tried the skin beautifier, 'L'Email de Paris,' and found that it instantly imparts a natural bloom and freshness to the complexion."

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies, producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

Selected Poetry.

THEY SAY.

They say—ah, well! suppose they do!
But can they prove the story true?
Suspicion may arise from naught
But malice, envy, want of thought;
Why count yourself among the "they"
Who whisper what they dare not say?

They say—but who the tale rehearse,
And help to make the matter worse?
No good thing can possibly accrue
From telling what may be untrue;
And is it not a nobler plan
To speak of all the best you can?

They say—well, if it should be so,
Why need you tell the tale of wo;
Will it the bitter wrong redress,
Or make one pang of sorrow less?
Will it the erring one restore,
Henceforth to "go and sin no more?"

They say—oh! pause and look within!
See how thy heart inclines to sin!
Watch, lest in dark temptation's hour
Thou, too, shouldst sink beneath its power!
Pity the frail—weep o'er their fall,
But speak of good, or not at all!

Agricultural & Domestic.

For the Gettysburg Compiler.

MANURING LAND.

Knowing very well how difficult it is to establish new theories in opposition to long accepted practice, I feel somewhat reluctant to present to the readers of your valuable agricultural column anything as antagonistic to the long continued usage of hauling out manure during the heat of summer. In doing so, however, I will endeavor to make plain to them some truths that will, I hope, convince them that it is a great mistake, and should, as much as possible, be abandoned.

It is a well fixed fact that during the winter months we fill our barnyards with manure, and from the commencement of spring until we haul out, the heap is more likely to grow less than greater. Now, why is this? Because the summer heat absorbs the liquid portions and leaves behind only the dried residuum. Understand, in this connection, that vegetable growth differs from animal growth in this, that while the animal is nourished by being fed upon animal and vegetable food in substance, vegetables are only nourished by *gases generated and set free* by heat through a process of decomposition of animal and vegetable substance.

This must be thoroughly understood and appreciated in considering this subject—*that vegetables, unlike animals, do not consume food in substance, but absorb gases or liquid food for their support.*

Now to get these gases buried beneath the soil, where they will be preserved, by coming in contact with lime, sulphate of iron, or any other substance which they have an affinity for, and that will confine or hold them in solution until vegetation appropriates them by absorption for its support, is our whole aim in manuring. This is not done by leaving our manure heaps lie exposed to a burning sun for several months, and then hauled out into the field, and re-exposed in small heaps to the sun, until most of the fertilizing properties of the manure have been *set free by heat,* into a common *reservoir* among the heavens, only to return again in the rains and snows and atmosphere that affect all farms in common.

By allowing the manure heap to remain exposed to the sun during summer, and spread over the field in August, to be ploughed down for fall grain, *at least three-fourths* of the fertilizing properties of the manure are lost to the owner. We all know from experience, that one load of manure hauled fresh from the stable is worth two from the heap.

How is this to be corrected? you will ask. I recommend that during the latter part of winter the manure be hauled out upon sleds or wagons, into the fields intended for spring or summer crops, and ploughed under, when the sun has but little effect upon it. The oats crop, for instance, would not absorb over twenty-five per cent. of its strength, leaving yet remaining seventy-five per cent. for the fall grain, which would be three times as much as any farmer ploughs under in August, besides having received the benefit of a good oats crop, and having remaining to him the opportunity of hauling his lime in August, when the roads are good and he can spread it in the flour, in which condition it is worth fifty per cent. more than being spread in a mortar state. Again, fertilizing gases being lighter than air, always ascend, and by ploughing them under in the spring and then spreading your lime in August, you bring them more readily into juxtaposition in the fall, when you plough, and it is only by so doing that either of them act successfully.

LARKSFIELD.

HOME PAPERS.—Recollect that if a home weekly paper is to be supported, home influence must do it. Every dollar sent to an eastern paper is at the expense of the local journal. A county acquires prominence through its papers more than in any other way, and to every one who has the interest in his county at heart, his home paper is a necessity. Never will such a man take a paper from home until he is able to take a second paper. His first paper will be his home sheet, and he will so identify his own interest with that of his county paper, as to consider his subscription as much a matter of yearly duty as payment of his taxes.

HOW TO SECURE ATTENDANCE AT CHOIR MEETING.—The leader of the Presbyterian choir at Newville has had considerable trouble to secure the attendance of the members. The principal excuse was "company." Last week the said leader published the names of all the members in the *Star,* and in the same notice requested the public to cease visiting the said members on the evening of choir meeting. We have no doubt the desired effect will be obtained.

PUBLISHING SCHOOL RECEIPTS AND EXPENDITURES.—The Harrisburg *Telegraph* says: There appears to be a general negligence on the part of school directors to publish the accounts of the receipts and expenditures of their respective districts, as required by the Act of Assembly. The State Superintendent of Common Schools states that this section of law is as binding as is the section requiring them to keep open schools, and a neglect to perform this duty according to the law, will subject directors to removal by the courts, the same as the neglect of any other duty required by law.

GOOD HEALTH.—The blessing of good health may be enjoyed by nearly everybody if they will only observe faithfully the following concise rules: First, keep warm. Second, eat regularly and slowly. Third, maintain regular daily bodily habits. Fourth, take early and very light suppers. Fifth, keep a clean skin. Sixth, get plenty of sleep at night. Seventh, keep cheerful and respectable company. Eighth, keep out of debt. Ninth, don't set your mind on things you don't need. Tenth, pay the printer.

A SCENE.

NOTES TAKEN WHILE A POOR MAN'S WIFE WAS GETTING DINNER.

Ten o'clock.—The wife digging potatoes; two children crying, and two others fighting. Husband not about.

Half-past ten.—Wife returns from potato-patch; finds a pig in the kitchen, and six young ones in a general fight. Makes a fire, and goes after water.

Quarter to eleven.—Wife returns; finds all the children crying, and the dog in the meal-barrel. Fire out.

Eleven.—Renews the fire; puts on the potatoes; whips five children; then goes for more water.

Quarter-past eleven.—Returns, and sets the table; puts the bread on it, whips the other young one who had escaped before by hiding in the closet.

Half-past eleven.—Wife goes for more water; returns, and finds the pig has upset the potatoes from the stove, the dog has eaten the bread, and the children are crying and fighting alternately. Whips pig first, dog next, then the children; then commences getting dinner again.

Twelve.—Husband returns, and finds no dinner, swears a few, and whips a young one. Wife gets mad, and makes for a broomstick.

Grand Tableau.—Wife beating husband with a broomstick; three children holding on to their father's coat, and three to their mother's dress; hog running in the distance with a potato, and dog in pursuit.—[*Curtain falls.*]

☞ In a neighboring town the lads of the school acquired the habit of smoking, and resorted to the most ingenious methods to conceal the vice from their master. In this they were successful until one morning, when the master caught them at it, and stood before them in awful dignity.

"How now?" shouted the master to the first lad, "how dare you be smoking tobacco?"

"Sir," said the boy, "I am subject to headache, and a pipe takes off the pain."

"And you? and you? and you?" inquired the pedagogue, questioning every boy in turn. One had a "raging toothache," another a "colic," the third a "cough;" in brief, they all had something.

"Now sirrah," bellowed the master to the last boy, "what disorder do you smoke for?"

Alas! all the excuses were exhausted; but the interrogated urchin, putting his pipe down, after a farewell whiff, and looking into the master's face, said, in a whining, hypocritical tone:

"Sir, I smokes for corns!"

☞ A Frenchman in London has twenty dogs, each of a different breed, which he styles his "grand armee," and which he puts through a manual of military regulations. He will cry "Order," and the dogs will form in line; "Right foot forward," and each dog will advance his right foot; "Left foot forward," and each dog will raise his corresponding member; "March," and the dogs will "step off," in a lively manner. He will shout "Picket," and each dog will take a separate position on the watch. He will issue the command to "Telegraph," and each animal will bark, and the bark be confirmed by his fellow—with many other performances of a similar character.

☞ The longest train of cars that ever passed over any railroad is said by the Easton (Pa.) *Argus* to have recently passed over the Lehigh Valley Railroad. Thrilling Encounter with a Den of Black Snakes in South Mountain, Maryland.

The Boonsboro' *Odd Fellow* relates the following adventure of Professor J. Mitchell, of that town:

Prof. J. Mitchell, the celebrated "South Mountain Wizard," while out gunning last Friday, had a most thrilling adventure with a den of Black Snakes, known as Racers, from which he narrowly escaped with his life. As is his habit the Professor had taken his favorite carbine and gone into the Mountain after squirrels. The best part of the forenoon had been spent beating through the brush and over the rocks, without meeting with any adventure, and but ordinary success in procuring game, &c. Suddenly however he came to a ledge of rocks, about a mile from the South Mountain House. Stopping a moment to take a survey of the surroundings, he saw a large Black Snake stretched out on a rock sunning himself. He at once took up a couple stones and threw one at his snakeship, but, unfortunately, missed him. This aroused the snake, and in an instant he uncoiled himself, and stood with his head erect, as if indignant at this intrusion—and at the same time gave a loud, shrill hiss, or, rather, whistle. The Professor delivered his second stone with such precision as to mortally wound his enemy. No sooner, however, had he thrown the stone, than he heard a fearful rustling among the brush to the left, and another whistle, louder and shriller than the first. Turning his eye in the direction from whence came the noise, he saw a monstrous black snake, (a racer) coming directly toward him, with his head erected about five feet from the ground, and his forked tongue darting from his distended jaws, as if bent on fight. The Professor, (who is an acknowledged crack shot,) immediately raised his carbine, and fired, and had the satisfaction of seeing the monster snake roll over in the agonies of death—having split his head open with the ball. This proved but the commencement of the battle—for, before the Professor had time to congratulate himself upon his success in vanquishing two of his foes, a third one, measuring about eleven feet in length, and thick in proportion, had approached within a few feet of him—his head erect—hissing, and darting his tongue out in a manner to appall the stoutest heart. To retreat was out of the question; a fight was the only alternative, and quick as thought he levelled his carbine at the snake's head—but, unfortunately, missed it, at the same time dropping it, (his carbine) upon the ground. With the rapidity of lightning the black snake attacked the Professor, and commenced winding his slimy coils around his legs and body—higher and tighter at every coil of his loathsome form, until the Professor was unable to move a foot. His efforts to extricate himself from the "coils of death,"—as they seemed to him,—were unavailing, for with every effort the folds tightened, and the work of respiration became difficult. Death and the snake stared him in the face! and made the cold chills of horror and agony creep over his body. It was a fearful moment—a moment of the most intense horror and agony, that made the flesh creep, the blood chill, and the hair literally to "stand on end like quills upon a fretful porcupine." Nothing but his great presence of mind saved him from strangulation and a loathsome death! Recollecting that his hunting knife hung by his side, he seized it, and with his nerves braced by despair, drew it across the body of the snake, severing it in two at one stroke. The coils relaxed—the snake dropped dead at his feet, and the professor was free again. By this time he heard a great rustling in the bushes, and the dry bark cracking in every direction, accompanied by loud, shrill hisses and whistling, as if the whole surrounding woods was filled with snakes.

Deeming discretion the better part of valor, he hastily grabbed up his carbine, girthed his hunting knife, and beat a precipitate retreat. The Professor was pursued for some distance, but being in a hurry he had no time to look back and count the numbers. He says that had they come one a time he would not have retreated; but to attack him by companies, brigades and divisions, was enough to frighten any man.

We have endeavored to give the facts as narrated by the Professor himself. Mr. Mitchell is well known in this community, and we have no reason to believe the facts have been exaggerated. We have since been informed that this species of snake is very plenty in the mountains, and have frequently been known to attack persons who intruded in their dens.

DECLINE OF RADICALISM.

We often see a well dressed swell come to seed. His clothes denote that some hatter, tailor and merchant has contributed liberally to furnish him an outfit. But his clothes are rusty now, and the whole individual is among the "has beens." It is just so with the Republican party. It got into power by promises which proved false. The people refuse to trust them again. They have quarrelled with their leader and instructor, and this once plump and well fed band of political robbers are fleeing to the caves and mountains for security. Their once sleek wardrobe has become tattered and torn, and rounded forms have become emaciated. They are too unfortunate to make fun of or to kick. Let them pass out in silence. The disgrace is sufficient punishment.

And as they pass we are reminded of De Soto's army of Spaniards as it left Florida, abandoning the conquest of the country. They entered the country with hundreds of caparisoned, mettled steeds; their riders plumed and armed like true blooded warriors. A few years later a remnant of the men were embarked on board a flat-boat floating down the river to the ocean, dressed in fragments of skins of wild beasts. And as they floated down they were saluted with derisive laughter by the Indians, and an occasional arrow from his bow. They entered as aristocrats and passed out as beggars, mendicants, without fortune or honor. So with this decaying Republican party. Their loyal and angelic robes are soiled and ragged, and a sorry set of devils they are, at best, showing the base counterfeit they were. Their leader is not dead, but he has betrayed them. O, Massa Greely, why did you? How could you? But he did. 'Tis done. Let his followers pass out. Don't laugh—don't shout. Their indignation and shame is all they can bear. Pass on, remnant of a once fat and boastful party. We will not laugh. The country is in a bad plight, but the old Democratic party must do the best it can. The people have had enough of Republicanism, and Democracy must come to the rescue. Don't laugh at the remnant of shoddy, but try and recuperate from the little that is left. They have torn down; we must build up.—*Warren Ledger.*

COMING BACK.

The Lancaster *Intelligencer* says:—During the war, through various influences, not a few Democrats were induced to abandon the great political organization with which they had always acted, and to vote with the Republican party. Few leading men did so except under the influence of purely selfish motives, but they influenced a proportion of the honest masses. Most of the renegade leaders are still among the most dishonest and malignant Radicals of the country, but the rank and file, those who were mistaken but conscientious, are rapidly leaving the Radical ranks and returning with renewed devotion and zeal to the fold of the Democratic party. They have had their eyes effectually opened, and have voted with the corrupt and revolutionary leaders of the Republican party for the last time. We know numbers of such men. We meet them daily, and their devotion to the great principles of the Democratic party is warmer, if possible, and more firmly established, than before they were induced to desert it. We welcome them back with open arms. In the present campaign, and in future contests, they will be found doing their whole duty with an earnest zeal that will tell for good upon the best interests of the nation.

FIRING THE NORTHERN HEART.

The opinion of Attorney General Stanberry, declaring the military reconstruction bill to mean just what it was said to mean by its supporters at the time of its passage, has afforded the Radical leaders another pretext for renewed agitation. This opinion simply recites, what no sensible person who has read the bill will deny, that it was not intended to give the five military commanders exclusive jurisdiction in their commands; that their acts are subject to the approval of the President; and that they have no right to remove the civil officers of the States, or interfere with their legitimate authority. In coming to this conclusion Mr. Stanberry is in entire harmony with the recent decision of the United States Supreme Court in the Mississippi case, pronounced by Chief Justice Chase, the Court being unanimous. Justice Chase said: "By the supplementary act other duties are imposed on the several commanding Generals, and their duties must necessarily be performed under the supervision of the President as Commander-in-Chief. The duty thus imposed on the President is in no just sense ministerial. It is purely executive and political." Mr. Stanberry uses no more decided language than this, and yet, before the President has intimated that he intends to accept this interpretation of the law as the guide of his action—before he has given a single order which has provoked Radical criticism, he is assailed with all the characteristic venom and malignity of this party of "great moral ideas."

Nothing, remarks the Erie Observer, can be clearer than the purpose of all this bustle. The Radicals must revive sectional animosities and prejudices, re-open the rapidly healing sores created by the war, or perish. Since the adjournment of Congress the country has been constantly becoming more peaceful, and there was good ground for the hope that, ere long, it would be at rest. This condition of affairs was utterly inconsistent with the political necessities of the Radicals, who cease to be a power when peace and the Union are restored. As soon as it became evident that the people of the South would accept the Military Reconstruction act as the basis of re-organization, and that no active opposition would be offered by the Democracy of the North, the Disunionists promptly set about the work of raising new issues. Thad. Stevens rushed in with his supplemental "mild confiscation," and Butler and Wade advocated a re-distribution of the landed property of the South in accordance with "the eternal fitness of things." It is fatal to the future of Radicalism that any finality should be offered or accepted as the condition to political calm and the return of material prosperity. The suggestions of Stevens and Wade failed to answer the purpose, and so a fresh crusade upon the President was determined upon.—The peace and prosperity of the nation are to be kept suspended in the balance, for the purpose, and that only, of perpetuating the passion engendered during the war, and enabling the Radical leaders to retain their hold on the public plunder.

RADICAL PATRIOTISM.

It was a true saying of Doctor Johnson, that "Patriotism is the last refuge of Scoundrels," and its truthfulness has been fully exemplified, during the last six years in the United States. For a more unmitigated set of scoundrels and thieves never existed in any civilized country on the face of the earth, than has cursed the United States for that period of time. The war was a perfect harvest for these vampires, and pretended patriotism was made the cloak to cover up their villainies. The country has been plundered to the extent of many hundreds of millions of dollars, all of which has gone into the pockets of these robbers of the treasury, and still they are not satisfied. The war having ceased more than two years ago, much to their regret, they have ever since kept up a continuous howl against the Southern people and prevented a restoration of the Union. And now, following the lead of Thaddeus Stevens, they are preaching up the doctrine of confiscation, and, under color of law, are attempting to rob those people of their houses and lands, and appropriate them to their own use.

The patriotism of these scoundrels is measured by dollars and cents, and if they could sell the liberties of the white men of the North for a valuable consideration, they would not hesitate at that or any other enormity. Such is Radical patriotism, and it is this that the people are called upon from time to time to sanction at the ballot box.

☞The New York *Herald* says a conviction is now working in the minds of the people that the immense war debt was incurred, not to save the Union, but to save the Radical party and get the negro's vote for that party. There are now six hundred thousand men slaughtered and three billions of debt created, simply to build up a fanatical party, to make bad laws, and steal the public money.

☞It seems the Radical managers of this State cannot find anybody within their party for leaders and candidates except renegade Democrats and Abolition Yankees. John Scott, the President of the Williamsport Convention, is a renegade Democrat, and Judge Williams is a Connecticut Yankee. Native Radical stock must be exceedingly below par.

☞Maj. Gen. Rawlins, Gen. Grant's Chief of Staff, has been lecturing in Galena, the home of Grant, giving a history of the Rebellion and sketching at length the acts of the Government since its surrender, showing that the President has pursued an eminently pacificatory course. He is supposed to reflect the views of Gen. Grant, and his ideas do not suit the Radicals. All the indications point to a certainty that if the Radicals make Grant our next President, they will be deceived in him, as they were in Johnson.

☞Six persons have died at the Lancaster county Alms-House within a few days from the effects of a malignant disease which proves fatal in a few hours. The physicians in charge pronounce it to be spotted fever.

☞It is reported that Santa Anna was shot on the 25th ult., at Sisal.

A PARTISAN JUDICIARY.

The confiscation scheme of Mr. Stevens, or the agrarian movement of Senator Wade, is not so atrocious as the seventh resolution of the Williamsport Convention. That resolution is in these words:

That warned by past misfortunes, we ask that the Supreme Court of the State be placed in harmony with the political opinions of the majority of the people, to the end that the Court may never again, by unjust decisions, seek to set aside laws vital to the nation, nor impair the safety of the public securities, nor impair the operation of the bounty, pension and tax laws, which were required for the public defense; nor in any way thwart measures which were essential to the public protection; but that, on the other hand, it may become and remain a fit and faithful interpreter of the liberal spirit of the age, a bulwark of public faith, and an impartial and fearless exponent of the equal rights of man.

This is an open and bold declaration in favor of a partisan judiciary. Heretofore no party has laid its sacrilegious hand upon the altar of justice and sought to degrade and debase the priests who minister thereon. The judiciary, by common consent, has been kept above the strife and contention, the animosities and bickerings, which are inseparably connected with party contests. To be sure, since judges were made elective, *they have been put in nomination by* party conventions, but this was only as a means for obtaining a concert of action among the people, and not as a method of committing the man to opinions which, as a judge, he would be called upon to announce as law from the bench. Judge Sharswood has received the nomination of both and all political parties, and been elected without opposition or question as to his political opinions, and the same compliment has been extended to other judges in different parts of the State.

But the seventh resolution of the Radical Convention begins a new era in the selection of the men who are to preside over the courts of justice in this State. The Supreme Court of the Commonwealth is to "be placed in harmony with the political opinions of the majority of the people"—that is, men are to be nominated as expounders of the law who will look at all statutes as partisan politicians, and not honest, conscientious, and impartial judges. This is what the seventh resolution means. * *

It is evidently the intention of the Radical party to inflict that worst of all curses, a partisan judiciary, upon the people of this State and nation. What bad judges, the mere creatures of party and faction, can do to injure a country, and rob the people of their rights, may be learned from the history of England, during the times when Jeffreys and others disgraced the judiciary of that kingdom. Under the reign of those men, property was insecure, life held at the mercy of political spies and informers, money wrung from all classes by fines, taxes and impositions of an unusual and unlawful character; the jails filled with the best men of England, and trade, business and general prosperity utterly destroyed. And these results will assuredly follow the adoption of such a principle as that enunciated by the Williamsport Convention with reference to the selection of judges. What happened in England will be duplicated here. Our judges will become Jeffreys, and American citizens will suffer in property, purse and person what those of England did from the action of partisan judges. And yet the Radical papers hold up this seventh resolution to the admiration of the people, and accept it as the key-note of the campaign. Nothing so infamous has ever been promulgated from a political convention in this country, and the people will say so at the polls.—*Age.*

THE GRAND CATHOLIC COUNCIL.

Magnificent and Imposing Ceremonies at Rome.

ROME, June 29.—The religious ceremonies in celebration of the eighteen hundredth centenary of St. Peter's martyrdom, and in reverence of St. Paul and the canonization of twenty-five Dutch, French, and Spanish martyrs, who died in Japan, as saints, was one of the most gorgeous religious ceremonies ever seen.

The observance was commenced with a general illumination of the City of Rome. Saint Peter's shone like a great church on fire.

At 7 o'clock this morning there was a grand procession of prelates, priests, monks, and soldiers from the Vatican to Saint Peter's. His Holiness the Pope was carried on the throne. There was an immense crowd assembled in the interior of the church before his arrival. St. Peter's was most magnificently decorated with cloths of gold, silver tapestries, paintings, and two hundred thousand yards of crimson silk. The building was lighted with many millions of wax candles. There were one hundred thousand people inside its walls, including the ex-King of Naples, the Foreign Ministers, five hundred Cardinals, Archbishops, and Bishops, and many thousands of clergymen, priests, frairs, and monks. There were even nuns and soldiers from almost every country in the world, and the assembled multitude made up a brilliant congregation.

Pope Pius the ninth celebrated the Gregorian mass in Greek and Latin. There were two interruptions to the ceremony.

The curtains of one of the windows of the church caught fire at one moment, but it was speedily torn down by the guard, and no damage occurred. After this a man, who had become crazy from excitement produced by the pomp and glitter and lights, cut his throat, and died just under the statue of St. Peter. There was no confusion in consequence. His body was quickly removed outside. The Pope at once proceeded to reconsecrate the church stained with the blood of the suicide, and then proceeded with the service of the altar.

Liszt composed extra music for the grand mass, and a choir placed on the dome of St. Peter's made the angelical responses, the cannon of Castle San Angelo thundering forth the accompaniment instead of the organs. The Pope's voice during the celebration was clear and very sweet, and heard all over the church. It was a most sublime scene when, at the elevation of the Host, the prelates, priests and nobles, peasantry and soldiers, who were spectators, knelt to the earth to do reverence to the Higher than the Highest. The city illuminations, fireworks, races, and general festivities in honor of the centenary anniversary will continue during a week.

☞The Fortieth Congress re-assembled yesterday, and began the work of partisan, sectional agitation anew. A bill intended to destroy the small remnant of civil government remaining in the South, and authorizing the registers to strike from the voting lists the names of those persons who in their judgment were not entitled to the rights of citizenship under the military reconstruction acts, was introduced in the Senate, and in the House the election in Kentucky was treated with contempt, and the voice of the majority disregarded. From such a beginning the end can easily be predicted.—*Age of Thursday.*

TOWN AND COUNTY AFFAIRS.

THE FOURTH OF JULY.—The Fourth was celebrated here with considerable spirit. We had as visitors two military companies, one from Brooklyn, N. Y., numbering about fifty men, and the "Ziegle Guards," of York, Pa., about thirty—with the Mayor and Councilmen of Brooklyn, and a goodly number of people from other sections of the country.

The military arrived on Wednesday evening. They were escorted from the cars to the Court-house by a committee of citizens, and there presented to the Burgess, R. G. McCreary, Esq., by Col. C. H. Buehler, in a very neat and fitting manner. The Burgess made a speech of welcome, (seasoned with politics,) and was responded to in a few sensible remarks by the Mayor of Brooklyn. The latter were applauded, as they deserved to be. After cheers for the visitors, and a response "with a tiger" on their part, the companies marched to their respective quarters.

The Fourth was ushered in with firing of cannon, ringing of bells, and the national airs by the Gettysburg Cornet Band, played in capital style. After breakfast, the military companies paraded the principal streets, eliciting by their soldierly bearing and splendid appearance, remarks of admiration on all sides. The Brooklyn Band, too, added greatly to the attractions of the occasion.

After being dismissed, the soldiers repaired to different points on the battle-field, and thus spent most of the day, the Brooklyn boys being specially interested, as many of them had participated in the fight.

The "Ziegle Guards" left in the afternoon train, and the Brooklyn company on Friday morning. All seemed pleased with their stay among us.

—The private pic nics on the Fourth were numerous, and, so far as we have heard, all delightful.

LAMENTABLE ACCIDENT ON THE FOURTH.—A most lamentable accident occurred here early on the morning of the Fourth. A number of our young men were engaged on Cemetery Hill in firing a salute, when the gun discharged prematurely, resulting in terrible injury to Mr. John Atwell, who was at the moment engaged in ramming down the charge. His left hand was torn entirely from the arm, and his body thrown about eighteen feet from the muzzle of the gun, inflicting shocking bruises and burns. He was at once brought to town (to the residence of Mr. Jacob Sheads,) and medical aid summoned. Drs. O'Neil, Horner and Huber were promptly on the spot, and, after examination and consultation, concluded to amputate the arm above the elbow, which was accordingly done. The injured man is now doing as well as could be expected, and is receiving every possible attention, Mr. Sheads and family, as well as the citizens generally, manifesting the warmest solicitude for his comfort.

Mr. Atwell has been among us for several years, and proven himself a correct, industrious and worthy young man. He is a marble cutter by trade, having recently finished a very creditable apprenticeship with Mr. Cannon. The case is one of the saddest, and we are glad to hear that a movement is on foot to manifest sympathy by more than mere words.

How it happened that the gun discharged prematurely is altogether a mystery. The piece was in most careful hands—never more so. They had nearly all served in the army, and engaged in cannon drill for several days before the Fourth, to avoid the possibility of accident.

It is confidently thought that Mr. Atwell's vigorous constitution, with the careful nursing and attention he is receiving, will insure his recovery. God grant it!

HARVEST.—Our farmers made a small beginning at their wheat harvest last week, and we presume that to-day the work will become general. The crop, notwithstanding some damage by the weevil, is very heavy, and promises the largest yield ever had in this county.

AGRICULTURAL FAIR.—The Fair of the Adams County Agricultural Society will be held the last week in September—the 24th, 25th, 26th and 27th. Full particulars will be given hereafter. The York and Cumberland county Fairs will be held the succeeding week.

COLLEGE ITEMS.—The Senior examination took place at the College on Friday week. They all passed, 15 in number. The Latin Salutatory has been assigned to Charles S. Albert, of Turbutville; the Valedictory to Wm. E. Parson, of Milton. The Commencement Exercises will take place on Thursday, the 8th of August. On the morning of the day preceding, the Junior Exhibition will be held; and in the afternoon, Rev. Dr. Joseph A. Seiss, of Philadelphia, will address the Societies; and in the evening, there will be a discourse before the Alumni by Rev. V. L. Conrad, of New York City. On the Sabbath preceding, the Baccalaureate Address will be delivered by the President, Rev. Dr. Baugher.

FAIRFIELD IMPROVEMENTS.—Messrs. Daniel King, Edward Raeshe and John Johns are remodeling and greatly improving their residences, adding no little to the appearace of the town. In the neighborhood no less than six new bank barns are going up, (or are already up,) one each for Christian Frey, Joseph Kittinger, David Musselman, Barnabas Riley, William Hill and Maj. John Musselman.

—Items like the above furnished from all parts of the county will much oblige us. Never mind the proper dressing up—give us the *facts*, and we will put them in shape.

CIRCUS COMING.—Robinson's great South-western Circus will exhibit in this place on Thursday next. This is said to be one of the best now traveling, embracing several stars in the profession and an entirely new out-fit. It is attracting immense audiences everywhere, and no doubt will here. See announcement in our advertising columns.

The Effect of the Gettysburg Waters on Vitality and Physical Development.

STARTLING DEVELOPMENTS IN REGARD TO THE SPRINGS.

Mr. Editor:—Allow me to invite attention to one of the properties of the Gettysburg Waters, which has escaped the notice of those who have written or spoken of them. I refer to their power of developing vital energy, and consequently of promoting a higher physical condition of the human system.

That these waters do possess this extraordinary power, at least to a limited extent, I am well convinced, though I despair of convincing others with the facts at my command, and only propose by this communication to invite attention to it.

About a twelve-month since I used this water for a temporary derangement of the stomach, and afterward continued it for the sensation of well being which it produced. When exhausted by over physical or mental exertion, I had recourse to this water, and it revived my drooping powers: when depressed by annoyances, disappointments or pecuniary losses, I also used it in rather larger quantities, and it raised my spirits above the depressing circumstances by which I was surrounded. I continued its use for eight or nine months without expecting or dreaming that it would produce upon me any other effect, when I was not a little surprised on discovering by practical, not imaginary tests, that it, or something else, had greatly increased my general strength, that I was able to perform, both physically and mentally, feats which had ever before overtasked my abilities. Had I been afflicted with any chronic disease I should only have inferred that it was curing me, but I had no such affliction.

I have had accounts of similar experiences with this water, from several of my friends and acquaintances, who have used it for some time, either for trifling disorders or without any, and their experience resembled mine, more or less, according to the length of time which they had used it, and the regularity with which it had been taken.

But I received the most remarkable confirmation of my own experience in this matter, in the testimony of a gentleman whom I met at the Springs the other day. It was to the effect that he had used this water almost constantly during the last two years, that when he commenced its use he was in the enjoyment of his usual health, but was sallow-complexioned, lantern-jawed, and contracted in the chest; that under its influence he had developed into the really fine specimen of the physical man which he presented, that all his acquaintances testified that he was apparently ten years younger, instead of two years older, than when he began to drink this water, and that he knew himself that he was stronger, was in better spirits and mental condition than ever before, though he was then forty years of age. This man had been one of the first to testify his gratitude by hastening to pay the merely nominal price fixed upon the water, and stated that he would continue to use it as long as his money lasted, as he preferred the higher physical and consequently spiritual life to which he was attaining, as he firmly believed, through its use, to all the money in the world, though he believed that he could make enough more, in consequence of its use, to justify, on pecuniary grounds, its purchase. He frankly admitted that the water sometimes disagreed with him for a while, usually at the change of the seasons, or when he took too much, that he then reduced the dose, or discontinued it for a time.

I confess that if I had not had similar personal experience, I would have rejected the statements, as misrepresentations or suggestions of a diseased mind, but coming as they did, as corroborative evidence of the testimony of my own senses, they produced upon me a profound impression. Not that I then believed, or now believe, that the well-ascertained facts in this connexion justify the startling conclusion toward which they conduct us, but considered in connection with the traditional accounts of the effects of these waters on health and longevity, they do merit more serious attention than even their extraordinary therapeutic effects.

I am aware that the great majority of your readers will reject, on theoretical principles alone, these stories as idle fancies or gross exaggerations, but they will do so without adequate reason. That there have existed springs the waters of which were capable of developing and sustaining the vital energy sufficiently to resist the effects of a false civilization upon particular functions, or upon all the functions of the human system, during the natural term of its existence, which is now ascertained to be over one hundred years, we must either believe or reject all historical testimony, sacred and profane. Ancient history informs us of springs that preserved the memory, of others that preserved the voices of singers, of others that were a specific for hydrophobia; and Herodotus informs us of one in the country of the Ichthyophagi or fish-eaters, that prolonged life to one hundred and twenty years. If we accept this testimony of the ancients, which is entitled to as much respect from us as will be ours from our posterity, then these medicinal springs must have belonged to the same class as those at Gettysburg. That is to say, they must have possessed the sensible properties of pure spring water, or how could the knowledge of them have been lost to mankind? For had they possessed the peculiar flavor or odor of common mineral springs, those characteristics must have revealed them to the invaders who have necessarily expelled or extirpated the residents in their vicinity.

☞We are requested to publish the following, which recently appeared as a communication in the Shippensburg *Valley Sentinel*:

A WORD TO SCHOOL DIRECTORS.

There is an error existing among some of our School Boards in regard to employing teachers, which, with your permission, Mr. Editor, I will state for the good of all, in a few simple questions:

Why do our intelligent School Directors go abroad for teachers, and reject home applicants, who on any fair examination would merit any School in the neighborhood?

Why send your teachers away to become the pets of other Townships and at the same time receive as your selection the rejected ones of similar School Boards?

Why should teachers not receive the same respect from Townsips, Wards, and Districts that Politicians do; in other words, why do we not go abroad for all our officers if strangers are the best?

Why should the teacher who never receives an extra salary be required to leave home, pay boarding and spend half of all he makes in order to secure employment?

Why should all our school funds be paid out to the teachers from abroad if the financial interest of a Township is at home.

These are questions we deem worthy of consideration inasmuch as they interest Directors, Teachers, and Citizens and seem to be subject to remedy.

Yours, &c., CITIZEN.

NEGROES TO GET ONE DOLLAR EVERY TIME THEY VOTE.

One of our aldermen states that one day while the registration of colored voters was going on, he was present when two colored men came in for their papers. One got them and retired without remark. The other stood about as if waiting for something. "You have got your papers, what do you want now?" was asked by some one. "Well, you see, dey charged me with a dollar to go into the 's ety, de oder day, an' told me when I votes I should get a dollar back every time, and I wants my dollar now." He was very unceremoniously told to leave, while the alderman laughed at the circumstance. Can it be that blacks are inveigled into midnight clubs, and money levied on them, and a dollar promised to them every time they vote for Brownlow?—*Memphis Avalanche.*

A CANKERED PARTY.

"*A long war, with its demoralizing influences, has* CANKERED *the Republican party*," says Thurlow Weed, the old Whig leader of New York, and now editor of the New York *Commercial*, (Republican.) A cankered, corrupt, rotten party is now controlling the destinies of this great Republic. No wonder that the leaders, such as Sumner, Wade, Stevens, Wilson & Co., are demanding Negro Suffrage to preserve their cankered, corrupt, party. They admit that without Negro Suffrage, the white voters will overthrow their party. A thing so rotten and corrupt calls upon the most debased ignorance for support.—*Reading Gazette.*

☞At an election for School Directors, held in the City of Lancaster, on the 28th ult., the Democrats carried their ticket by a majority of 600. This is another indication of the decline of Radicalism in the country, and the Lancaster *Intelligencer* says: "The present indications point to a majority of at least 750 for Judge Sharswood in Lancaster City. And if the Fortieth Congress should be as industrious for evil in the month of July as it was in the month of March, we shall hope to swell his majority to 1,000."

☞Satrap Sickles' letter to Sumner stating that the $500,000 appropriated by the Rump for carrying out "reconstruction" in the ten Southern States, will not be sufficient for the two Carolinas alone, has excited a vast amount of indignation among the people everywhere in this State. Nor is this indignation confined to Democrats. There are thousands of Radicals who, though willing enough to see negro governments established in the South to insure "perpetual supremacy" to their party leaders, are not content to mortgage their labor for years to come to pay the many million dollars which it now appears will be required to effect that object.—*Patriot & Union.*

What it Costs.—The campaign among the negroes of the South, which is being carried on so vigorously by the Radicals at the public expense, is costing more than it did to carry on the entire machinery of the Goverment under any Democratic President. How do the toiling and tax burthened white men of the North like that? How much longer will they endure it?

A Radical Victory.—The Harrisburg *Telegraph* announces with quite a flourish of trumpets, that the Republicans at Hilton Head, South Carolina, have just succeeded in electing a Justice of the Peace. That is a Radical triumph, a thing that only occurs of late where white men are disfranchised and negroes do the voting.

AN IMPORTANT DECISION.—The question as to what authority a teacher exercises over his pupils was decided a few weeks ago in the Montgomery county court, wherein a teacher was sued for chastising a pupil with a rod for disobedience. The Judge in his charge to the jury, said that a teacher occupied the position of *locus parentis* towards his pupils while under his charge, and the jury sustained his opinion, and rendered a verdict in favor of the teacher.

ADVERTISE.—Dull times are the very best for advertisers. What little is going, they get; while others are grumbling, they pay their way, and with a newspaper for a life-preserver, swim on the top of the water, while others around are sinking. We need hardly tell merchants and business men generally that the GETTYSBURG COMPILER is the best advertising medium in these parts.

Very Effectual.

As soon as there is the slightest uneasiness of the chest, with difficulty of breathing, or indications of Cough, take during the day 30 drops of Relief in a wine-glass of water. Cure effectual. Pains in the Head, Throat, common Hoarseness, a sudden attack of Diptheria, or Influenza, apply the same quantity. Persons suffering from Rheumatism, Tic Doloureux, &c., should not hesitate to apply the Radway's Ready Relief, both externally and internally. Nothing better in the known world. Create a sense of heat and irritation, or burning, you may feel perfectly satisfied of a cure. There is no better sign. For Sprains, Cuts, Wounds, Bruises, nothing like the Relief. Rub the part or parts where the disease or pain is seated, it that is sufficient. Aside from all this, the Relief will be found to be a splendid tonic when used with water, far preferable than the Bitters thrust upon the community. If you have Lameness, Swelling of the Knees, Feet, Joints, &c., use nothing else. In case of Asiatic Cholera, the Relief leads all other preventives. So in attacks of Cholera Morbus, Billous Colic, Fevers, Sick or Nervous Headache, Foul Breath, Purging, Dysentery, painful Diarrhœa, Vomiting, Convulsions, Bad Dreams, and general Debility, Radway's Ready Relief is a sure cure.

CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. SCHENCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutritious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhœa they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. OHIO AND BUCKEYE PATENTS.

At the great trial of Reapers and Mowers at Auburn, N. Y., in July last, by the New York State Agricultural Society, this Machine was awarded the preference over all others in Class No. 5. This class was the most important of any, as it embraced Mowing and Hand and Self-raking Reaper in the same Machine.

This Machine has been awarded Medals and first Premiums by the Pennsylvania and Iowa State Fairs, and by hundreds of County Fairs in all parts of the country. This Machine took the first Premium at the Adams County Agricultural Fair held at Bendersville, September, 1866. Also,

BALL'S OHIO & RUSSELL'S SCREW POWER.

Both first-class Machines, having sold a number of these Machines in the last three years. They have given general satisfaction wherever used. We ask farmers to call and examine these machines before purchasing elsewhere, as they will be able to make a better selection. We could produce quite a number of certificates from some of the best farmers in the county, but deem it unnecessary, as we warrant these machines to give satisfaction with a fair trial, or no sale. Insured for one season.

Extras always kept on hand. We have made arrangements to have repairing done when needed at any time and on moderate terms.

With the above we have for sale a number of valuable Farming Implements.

SULKY CORN PLOUGH,

Can be used for ploughing and cultivating corn—finishing one row at a time. Can also be used for loosening up corn ground or putting in seeding. By raising the front shovels it can be used for marking out corn ground—marking two rows at a time. A Cornplanter can also be attached, planting two rows at a time.

For crushing corn in the ear or shelled.
STEEL COMPOSITION BELLS,

STEEL PLOUGHS, SMYTH'S PATENT.
HAY RAKES,

An article every farmer should have—the best in the market, hand or self-discharging.

GRAIN DRILLS, (Willoughby's Patent,) with Crowell's Guano attachment.

Harrisburg GRAIN FAN, (Reynold's Patent,) considered the best mill ever in use in this county.

Brinkerhoff's
CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, 'We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

SEWING MACHINES.

The Grover & Baker—The Best in Use,

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

Needles and Thread will also be supplied.

The World Astonished

AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Reparator Capilli.

Throw away your false frizzles, your switches your wig—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. Albright, Reikes & Schmidt, Chickering & Son, Bradbury, Knabe & Son, Gale & Son,

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR

ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this Country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounce them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

THE PERUVIAN SYRUP

IS A PROTECTED SOLUTION OF THE *Protoxide of Iron*,

a new discovery in medicine which STRIKES AT THE ROOT OF DISEASE, by supplying the Blood with its VITAL PRINCIPLE, OR LIFE ELEMENT—IRON.

This is the secret of the wonderful success of this remedy in curing

DYSPEPSIA, LIVER COMPLAINT, DROPSY, CHRONIC DIARRHŒA, BOILS, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Disease of the Kidneys and Bladder, Female Complaints,

and all Diseases originating in

A BAD STATE OF THE BLOOD,

or accompanied by DEBILITY, or a LOW STATE OF THE SYSTEM.

Being free from Alcohol in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing *strength, vigor and new life* into all parts of the system, and building up an IRON CONSTITUTION.

DYSPEPSIA AND DEBILITY.

From the Venerable Archdeacon Scott, D. D.

DUNHAM, Canada East, March 24, 1865.

* * * "I am an inveterate Dyspeptic of more than 25 years' standing."

* * * "I have been so wonderfully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

One of the most DISTINGUISHED JURISTS in New England writes to a friend as follows:

"I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a NEW MAN of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

An EMINENT DIVINE of Boston, says:

"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

THOUSANDS have been changed by the use of this remedy; from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen, and others, will be sent FREE to any address.

SEYMOUR THATCHER, M. D.,

of Herman, N. Y., writes as follows:

"WISTAR'S BALSAM OF WILD CHERRY gives universal satisfaction. It seems to cure a Cough by loosening and cleansing the lungs, and allaying irritation, thus REMOVING THE CAUSE, instead of drying up the cough and leaving the cause behind. I consider the Balsam as good as any, if not the best, Cough medicine with which I am acquainted."

The Rev. JACOB SECHLER, of Hanover, Pa., well known and much respected among the German population of this country, makes the following statement for the benefit of the afflicted:

Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparation—WISTAR'S BALSAM OF WILD CHERRY—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefitted by it.

FOUTZ'S CELEBRATED Horse and Cattle Powders.

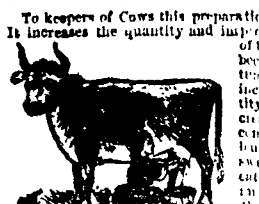

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Especially recommended to growers of STRAWBERRIES, RASPBERRIES, BLACKBERRIES, and all SMALL FRUITS.

More than 13 years of regular use upon all descriptions of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now entirely beyond a mere experiment.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME is eminently a success as a Substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States as a fertilizer that will *cheaply restore to the Soil*, those essentials which have been drained from it by constant cropping and light manuring.

IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than *bought* Stable Manure, or *Peruvian Guano*.
